Sparren, Jan. 27.-[dpecial Tologram I-One of

one but Dealer Burns and the stranger in the receive.
Suidently the stranger arcse, and at the same time pulled a streather long-barreled mickel-plated double-action Colt's revolver from his postet and said slowly yet firmly, while be opeled the tweapon: "Mr. Dealer I'm in preity hard circumstances and must have some money, so pass over \$20% and he devilish spick about it, too, Do you hear?" Dealer Birus looked up at the man with a pussible expression on his face, filmking that he nears to fooling. The stranger said in strin tones: "I mean what I say. Fork over the \$20% or I'll trill you'ns dead ar a door nail." The dealer saw that the max what I say. Fork over the \$20% or I'll trill you'ns dead ar a door nail." The dealer saw that the man what besperate and said "Certainly, my dear fellow; you can have the \$20% and at the same time reached down in the traver on passed him \$200, which he picked up and put into his pocket.

The stranger then said: "Dou't say anything about this affair and I will give you back \$200. Consider this a loan." "Of course I won't say snything aboutility the dealer replied.
"I want \$200 more then," said the rother, again larvelling his run full it the dealer store.

suything aboutift," the dealer replied.
"I want 1300 more them," said the robber, again leveling his gun full in the dealer's face.
Just at this memont two or three officers, among them beparty Shortiff Funk Heart, come up, but the robber made each of them litt down at the

them Dopaty Shortel Frank Heavy, came up, but the tobber made each of them bit down at the point of them revolver. Observing that the phoe was becoming rather a warm one the desparate rolls are the follow started for the door. As he did so Dick Richards, the doorkeeper, came eat. of the back reburs and shouted to him to go back, but he paid no attention, any arently failing to appreciate the situation. The desperado caulioned Rickings not to interface with him, but the hitter paid no attention to the warning. The robber had got, about two steps down and Richards stood at the head of the shirs, laughing at him.

Buddenly the stranger fixed a shot, which street Rickards in the right arm, just above the wrist, shattering the bone. Then the robber and wonld-be murdered Rick down shifts and through the saloon to the alley. The desperado ron him the alley and through the calcole the right arm, but above the wrist, slattering the bone. Then the robber and through the saloon to the alley. The desperado ron him the best street through the mud and ordered the same alley on the opposite side of the sirect. When he got him the gilley in the ran behind a section to the west side of the sirect. When he got him the alley in the saw a man in pursuit with a drawn revolver. Then he can til he cape to Jefferson street. On he was tide of the sirect when he saw a man in pursuit with a drawn revolver. Then he can til he cape to Jefferson street. On he west side of the sirect side of the alley is about except the came to believe that till he came to the tear of the tent on the covertent till he came to the tear of the tent on the cover of Yesler avenue and second of tree.

roster avenue and second street. Here he disappeared as if the carth had opened and swaltowed birn. Third of Police Mitchell and a number of officers scarched every nock and cramp in that vicinity a few minutes siver the desperado disappeared, but nothing could be

The wounded doork speer was made as comfortable as possible, and physicians, were sursemented. They found his wounds were service, the one in the right breast boing the most dangerous. It struck near the light opple and ranged outward. The builet is still ledged in the breast. The bune of the right foreart was shiftered, by the second's bullet, and its in such in condition that is in a surgeou's opinion that amputation may be necessary. They are not necessarily fatal. As soon as the unfortunate man's injuries were stiended to a linet was summoned, and he was taken to his home in North Secule.

monet, and he was taken to his home in North Seattle.

Search for the Laperado was kept up by the sheril- and police all afternoon without success. About 6 o'clock this evening word was received from the White house, about three miles south of town, that the man was there. Deputy Sherin in Donald was at once sent transet him. On err wing at the White house his deputy hearned that the despected had been stopping there aince Saturday with a woman, and that they had made every proparation for escape at light. While McDonald was talking with the lan Bord in the berrious the despende came down stories and commenced shooting at him through the open door. McDonald returned the fare, when the desperado turned, ran out of the healt door, and escaped to the surrounding timber. Nather were but in the duel. McDonald sunt to town for assistance, and a mamber of policemen were sont out to guard all the roads and bridges.

At 11 o'clock to angle it was reported that a man sweeting the description had been seen conting into town. At midnight officers are sentiching Wisechapet for him.

A COUNCIL OF WAR.

PRICE FIVE CENTS.

Republicans Need Larger Majority in the House.

DEMOGRATS WILL BE UNSEATED

Senator Teller Attacks the Windom Bill and Advocates Proc Coinage.

THE JETTY APPROPRIATION IS SAFE

Hormann and Dolph Are Conferees Dalkins Ser Judge of Washington-Confederates Assort State Right to Shield Orime.

Washington, Jan. 27.—[Onreonixx office, corner Fourteenth street and Fennayivania avenua.]

The republican caucis was called to order this exenting by Hendorson, of Himols. Speaker Reddentored into a detailed explanation of the changes proposed to be made in the ultruice. The greatest barmony characterized the proceeding. It was evident, however, according to Reeds statement, that the new rode, could not be inade ready for the antich of the house for several days to come, even should it be destrible to report antier. Moreover, there was an opinion outerfained by many members to the offset that more positive progress could be achieved in the disposition of the second consisted election cance without rules than with the second consisted election cances without rules than with

names if the demograts came to the conclusion to fillioniste. Two of these are absent oil account of telkiness, one on account of accinete the her inguly, and one is statent without making his whereabouts known. According to this count, if everything tavors the analorits not if no aminor falls ill or is called away, they will have a bare quorum. Nevertheless, the election case of Smith vs. Jackson will be ended in Wednesday, and fully deliated, from a double motive! Elect, to lay the foundation for speedy disposition of other contests; and second, togain time in which is secure the attendence of absent members. A resolution by thowell was adopted; to the effect that every republican nombor should make the attendence of the hell. Auring the time concess is in assisted, unless prevented by sixtness. There was some show of opposition to the orthogoed changes in the rules which includes the industriance. Cheatle, believers a significant challed furdians. Cheatle, believers in the respective of the constant of all in the with the party, and

The Missourt river senate bill, calling for \$250. The Missouri liver science bill, onling for \$220,000, as an energency appropriation, which the house reduced to \$25,000, and which Respectative Hertmann also amended by inserting \$75,000 for the mouth of the Columbia fiver, was not satisfactory to the Missouri enators; so for a six affects the Missouri river, and a conference was ordered. Senators Vext, Bolph and Cullom-being the senate conferees. The speaker has appointed Representative Honderson of Illhois, Hermann of Oregon and Bianchard of Louislanar conferees on the part of the house. It is highly probable that in the event of a compromise and an increase is but for the Missouri that it will only be conceded, by a like increase for the Columbia, since Oregon has two oppresentatives on the conference, which a single state has not been known to hime

ting a lump sum for the improvement of the Columbia river, 22,225,500 for the removal of the attractions at the motion of the river, and 11,235,500 for the rangl and locks. The sensior says they are passing turn some of the improvement of the Sauts See Mario and other rivers, and the Will ry, with the Columbia river. It has not been the policy of congress, be says, to make him paperpariations, but in case a cheapeahould be made he wants to have Oregon in live.

There is still a great deal of agiliation over the Washington judgeship. Senator equire received a telegram to-day stailing that a very great pixtest liad been made against the senators because it was appearing that they could not leake sure the appointment of Hanford. Senator Saulio made applied that the senators had filed ell recommendations and imade a full suid impartial extension to the prosidedium, secting forth the political, local and other-conditions to sit the candidates, and they will chestisally accept the presidents declare, considered that their offsets ability here in the presidents decision, conscious that their offsets ability here in the candidates, and they will chestisally accept the presidents decision, conscious that their offsets ability here in the presidents of the constitution of the first of the senators will not oppose his confirmation.

Senators will not oppose his confirmation.

Senators Allen and Equire to day presented a large number of memorials from the tegrishtive bodies of Washington. In addition to these mentioned in these dispatches yesterday was one relating to the odd numbered sections of land withdrawn by order of the secretary of the initerior in August, 1570; one asking for a military wagon read-along the Straits of Them, one relating to the donation of the Straits of Them, one relating to the donation of index for a fish inchery on the Columbia river. At the request of Senator Allen, a memorial feworing the construction of a ship could from Puret sound to larker Samminsh, washington and Union was ordered published. Accompanylag the memorial was a showing of the mining and other industries that would be greatly increased by the channel. Representative Wilson to day introduced a bill granting right of vay to the Spokene & Northern Ballway Company through the Colvillo Indian reservation. Schator Allen introduced a bill to gatabilish two-dund districts in Washington one with headquarters at Olympia, to be known as the Checkali district, and one with breadwarters at the Checkali and the with Scalent and and with Scalent and the control of the Spokene of the Spoken ish two-find matrices, in Washington, one with headquarters at Obrapia, to be known as the Chehalis district, and one with headquarters at Waterylle, to be known as the Golumbia Gistrict, Sounter Allen presented a polition from citizens of Montars, arking for the relief of those who agreed in the war with the New Ferrol Indians or the boirs of such persons.

Seinter Dol; h, from the committee of public lands, to-day reported favorably Sonator Mitch-off's bill providing that where one had officer has taken testimony in a final proof the proof may be them testimony in a final prior the proof may be equationed legal. Some animalments were made by Benator Mitchell before the vill was reported. Senator Dolph reported adversely the bill providing for a loweste at Jenicau, Alasin, the matter being covered in a general bill by Mr. Dolph.

Superinten deut of the Rathway Matt Service J. Lawric Bell toway issued an order extended to make of the most included to make the service of the service of the service and arche of papers should read: "Washington, to the service of teleprated or "Washington," or "Washington," D. C.," as the case, may be.

Semanter Dolph to-day Introduced several postconsider from 100mg introduced several regions signed by many cilleria, of Oregon as king.

That lies budget depredations claims of 1505 the
ratifed. The sonator made a brief specie, in
which he said that some of these cisions were
made by the people who last duffered, and others
were the holts and assigns of the original cisions. anta. A whole genera lon had passed since these lactums were acfulled ed by the interior department and yet they had not been paid. It was a channe that the government had so long kept these people out of their just claim.

A matter of runch interest to a large portion of Oregon is indee consideration by the involve definition.

A matter of rinch interest to a large portion of Oregon is under consideration by the intoclor department. It affects the rights of settlers upon lands claimed by the state to be swamp land, and with are asjected as such, and which the state office als have been urging the depar ment to confirm Congressman Hormann has submitted to the secretary numerous petitions from people in Easiern Oregon who as, for a curful inve traction into the claims of the state and assert as that the homes of many senters which are of first class agricultural and til able lands, are aftered by rich syndra as and indiinter the homes of intury senters with also lands, are attersely distinced through an explicit by rich, so nd case and individuals, most of whom are residents of other states. The department has been furnished by Mr. Hermann with the hast session have of oregon, and in these he calls attention to an act approved February 25 1889, which he requests the department to recogn 20, as far as possible, as to tuch as amp lands which settlers have made final proof of settlersont on unsert 10 pre-emp ion or homes call laws a copy of which act is as follows. By the laws a copy of which act is as follows. By the completed settlement thereon or who may have completed settlement thereon or who may have after complete settlement thereon or who may have after completed settlement thereon or who may have fall the pre-emption or homested have of the United States and shall have obtained by such is the United States and shall have obtained by and is hereby feater and sating respectively.

claimed.

Similar legislation was shown to have been had in 1835 Mr. Hermann also sake the department to except from the approval of the state lists all lands which the department records show are elationed by settlers who have made their flual proofs before the local United States land officer, and where certificates are issued to them, as is done in all cases where final proof is received by the register and receiver and on release by the state authorities that patent issue from the United States to settlers or, if this can not be done, he proposes that then lists are approved, that settlers having made final proof of sattlement on any lands included there has been approved that estilers having made final proof of sattlement on any lands included there has been according to the state laws. In reference to this same object it may be said that of the 33;00 acres of land in Warner valley, Oregon selected by the state as wamp land, 28;00 is submitted by the commissioner of the general land office to the secretary of the interior for approval, and 2800 acres are suffect to rejection. The total amount of land rejected from the state selections in both of the land districts of Lakeview and Burns aggregate 2,707 scres. It is also now ordered that in all cases where sattlers I are made claims or filed affidivits or protests in reference to state selections of such officers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in controllers and who may be carest to the land in the care of the care in the care tions of said claims they may have nearings of for such officer as may be carrest to the land in controversy and who may be authorized to ad-muniter caths. This procedure will avoid use less expense and to issume travel to many poor claiments, and lessen the hardships to all.

The recent trouble about the receivers of different and offices has resulted in an investigation being instituted into the methods of receiving public moneys by land officers. Several congressmen and sensators have been rather anxious to know why some of the receivers recently appointed have not been confrience. Senator Flumb, chairman of the committee on public lands, explained to all who inquired that Seretary, hobie had sent his private accretary to Plumb to-day, asking that no more receivers be confirmed until the favestigation now in progress shall be completed, and that some method be dound to prevent repetitions of the defications or Plumb will act upon the suggestion

The sub-committee of the special house committee on the world's fair was in session this thorning, sugaked in carrying out the instructions to formulate a bill providing for the holding of the fair in 1892. The Chicago and New York bills were used as the basis for a new bill, and such sections as are acceptable to all of the competing cities were arranged in a preliminary map her to form a rough araft of the sub-committee's bill.

race question was to most formidable and por tenious ever prescuted to a free people for solution. He saw no remedy which congress e uld apply that promised any preclain rull. He be lieved that a bitrary on a ments would but in crease the difficulty. The professed purpose of federal control was to secure a fair count of the negro vote but the nemal of et was to count that we for the republican party. The proposition was such a menseo to the rights of the reopholican that it must meet with the condemnation of shi men anxious to precede the sprit of the government. CHINA GROSSLY INSULTED

CHINA GROSSLY INSULTED

Pr test of Minister Hoon Against Abrogation of the Treaty of 1868

Washington, Jan 29—The president to-day cent to it e senate the documents comprising the fac corre pondence between the state departmen and it c Chinese government beginning Octobe 10, 1885, and ending becember 12, 1883, the substance of the correspondence which took place during Teveland's administration being published from time to time. On 1919 1889, Chang Yen Hoon, Chinese minister wrote to Blaine, referring to the action of the supreme court in deciding that the act of 1888 is in contravention of the expressed stipulations of the trenty of 1863, but that it is the exercise of the sovereign power vested in congress, and it must be respected us the supreme law of the land.

"You will pardon me," continues the minister, "if I express my amazement that such a doctrine should be published to the world by this august tilburn! for whose members by personal ac-

plants to secretary mayari that he had insured him (the minister) that the president would well any nectific, islation. In reply Bayard denies any such as urance, and informs him that the act bassed congress with such unanimity as to pulpa-bly render a veto wholly fullis.

WASHINGTON, Jan 27 -- Senstor Teller, of Coloredo, made an argument to day before the hou committee on colinge on the subject of silver coings. He expersed his disapprobation of the Window silver bill, regarding it as hostile to the

pared Ty men we a had not studied the silver question by the bend cres of New York and thinking were not thorough students of financial questions from a broad standpoint. It was very Biely le said that the prace of silver would be increased if the bull hould be ente of dirich law, but he would not support it on that account. Desaid the pracestion to level treasury notes in return if red posits of silver bullon made it ppear as though a lear was merely a cumme of the world to be the world and the world and the support of the silver was merely a cumme of the world to be an analysis of the thinking overments recognized this plus in the world of the silver the world of the silver the certainty of the properties of the properties of the silver the support of the silver that the silver the sil

ENORMOUS LOES TO THE ROADS A Hundred Miles of Traca Between Portland and

San Prancisco Clesco-- he Santa Ross

Brings No Mail-Snew 500 Feet Deep

Sin Francisco, Jan 7—[Special Telegran]—
The condition of the si on blockade on the Ore
gon d Cal forms railroad virtually remains the
same it is raining and snowing at diff rust
points on the Bishiyous to night, and no one
knows when the trak will be tleared
from Assistant General Emperint udent Prat. He
is two mites south of Dinsant r and with 800
men had on hand to day provisions for only three
days About 100 non with ten days provisions,
left Redding this murning to that the road from
that place to Sims, so as to have an open track up
to where Pratt now is

The storr of the e-isting condition of the rail
road blockade contains facts that are both favor
able and the reverse. The damage that the rain
enused around this city and in the valley to the
south, cast and north on last saturday is rapidly
being replaced, enabling local passenger and
freight trains to some extent to resume their

being repaired, enabling local passenger and freight trains to some extent to resume their regular trips. This damper in the aggregate has been very large and while much of it is now wiped out, considerable more reruduate to be attended to On account of it some kur or five hundred extra men were hired by the Southorn Pacific, Ean Francisco & North Pacific and North Pacific to assist to atwork to morrow at various points. The loss that the San Francisco North Pacific road has substantially the present different properties of the present different properties of the present different substantial the san Francisco North Pacific road has substantially which will be awelled sourcal thousands higher before it gets rid of the present differenties. The North Pacific coast road will escape with a loss of something less than \$5000.

less of something less than \$5000 As to the financial loss that the Southern Pacific As to the financial loss that the Southern Faction Company has sustained, only an approx mate idea can be given. For actual repairs that have been made since the winter storms have so in it has paid our some \$250,000. The loss that has been sustained from diminished freight and passinger revenues was something I be half a million up to last Thursday. Since that time the daily less to the company from all sources has been according to General Superintendent Fillmore, \$500. This fath loss can have up to a surpressed that it. daily loss con inues, wi h every prospect that it will be the same all this week

will be the same all this week.
Regarding rail communication from this city to
interior towns, the situation showed late to-night
that all three of the lines from hore to Sacramonto are now open. The same is true of the
roads from valled to haps and Callstogs and from roads from Vallejo to Napa and Calistoga and from Napa Junction to Sants Rosa. South of the city the state of affairs is also much better. On the coast division of the Southern Facific Company the line is open to San Jose, Monterey and Santa Marguerita, being all on the main the of the road. The b anch line from Fajaro to Santa Cruz Is still cosed. The Boath Fac fie Goast road is in running order to Los Gatos. The Los Anceles line is open, but the excessive rainfall in San Jusquin valley last night caused a great deal of damage on the branch line from Fresno to Porterville and on the one from Goaten to Alcalde. The San Francisco North Pacific road is now in working order to Close dale, while the North Pacific Coast people are running trains only as far as Howard.

NEW TROUBLE ON THE CENTRAL PACIFIC
The snow blackade on the Central Pacific did
not take a fayorable turn to-day. While the
snow has almost all been cleared from the track
in the Sierra mountains a new obtacle of a
formidable character has arisen. In many places
the snow has helted to a considerable extent
finally freezing the water from this source
so that the rails are one mass of
ice. This is now the condition
of the track for a distance twenty five miles west
of Reno, New. The same trouble is anticipated
for that portion of the track west of Tennel 18
intriber up on the mountain. This ice makes it
impossible to run any train or plow over the
track. The retary plow cannot possibly be run.
The only way that the ice can be got id of is to
use the pick and showed which will require much
time. For this reason none of the twelve dechayed traits is expected to get out before next
Thurday night.

layed trains is expected to get out before next Thursday night.

As it was snowing hard on the Shasta n ountains to-night, there is great cause for apprehending that there would be another snowstorm in the Sicra Navadas.

All Eastern mail sent from here up to the 20th inst., except that of the 15th inst., has reached its destination. The latter mail is now on its way East over the Atlantic & Pacelle. There arrived at Barstow this morning, over the Atlantic & Pacelle 600 souks of papers and twenty seven ponches of mail on its way to this otty. It will probably not reach here before Wednesday owing to the fact that no train left Los Angeles last night This is mail which has been directed from the Odgen route which has been directed from the Odgen route he train left for Ogden to night, and the one that started lest night was abandoned at Sacramebio started last night was abandoned at Sacramento. The snow on the sheds between summ t and tunnal 18 on the Central Pacific railroad is un precedented in depth ranging from fifty to 200 foct, and fit isolated cases attaining the on mous depth of 500 feet. A large force of men are engaged in bracing up week parts of the sheds, and shovelers are removing sunw from the roots. West of Summit the sheds are covered from eighteen to twenty five feet deep. In Eistern Newada and Ulah, along the line of the Central Pacific road the present snowfait has never be fore bes i equaled and a blockade exists between Wells and Terract, caused by anow failing on the fee covered track.

Let night a plow with six engines, going east from V c is, was dorathed with two of the engines and one of the firemen was killed and ar engi neer body sculded. An engine with a plow which left Terrace going nest, was derailed four miles from Torrace. The english was turned or its aide, but no one was injured.

Garibaldes Bream May Be R alized by the Adve tof the Twentiett Cortury. When Garibaldi came to Rome to take his when carried came to hope to the his seat in the chamber, says the kindon Stand-ard, the dreams which he had nourished as a boy, of aiding in the material as well as the moral regeneration of the Eternal city, took form in three grand projects, each of which was considered at the time scarcely likely to be carried out, it, indeed attempted, within the present century. They were, first, the embankment of the Tiber, with a view to averting the ruinous infundations to which Rome has been liable for centuries;

first, the embankment of the filter, with a view to averting the ruinous infundations to which Rome has been liable for centuries; secondly, the cultivation of the Roman Campagana, and thirdly, the conversion of Rome into a scaport.

The embankment a hure and costly work, is already well begun, and the looker-down from the heights of San Pietro in Montorio, or the Villa Corsini, may see considerable patches of the white marble wall as his eye follows the winding course of the river through the city, especially near the spot once covered by the picturesque squalor of the Chetto (now swept away), and where its course is spanned by a new stone bridge bearing Garibuldi's own name

The cultivation of the Campagna goes on more slowly, so many conflicting interests being concerned and the largest land owners not holding exactly the most distinctives and patriotic views on the subject. But the greatest scheme of all—that which at the time appeared the most visionary—that of making Rome a seaport, is ur der the serious consideration of the authorities, and appears likely to be undertaken at no distant date.

A commission has been formed to examine the projects which have been presented, consisting of the prefect of Rome and a min cipal councilor, an officer of, rank in the navy and one in the army, and one representant the ministry of war, the captain of the port of Cavita Vecchia and a prominent steamship owner. The project under consideration is approved by M Lesseps. It is extremely ample It is proposed to cut a cannil eighty meters wide and a prominent steamship owner. The project under consideration is approved by M Lesseps. It is extremely ample. It is proposed to cut a cannil eighty meters wide and a prominent steamship owner. The project under consideration is approved by M Lesseps. It is extremely ample. It is proposed to cut a cannil eighty meters made and a cannel eighty meters made and a cannel eighty meters wide and a cannel eighty meters of the scheme can be carried out can hardly be overestimated, and its

capital must be all in the direction of pros-

How a 'empaper Correspondent Aston-ished a company of dessachs
A newspaper correspondent, David Ker, traveling in Central Asis, came one evening upon a Cossach camp, says the Chicago Her-aid. Fires were blazing and round them

A SOURCE OF WONDER

to be a mo t outrageous he, I sent on:

'Up here at Orenburg' you passed the
Ural river and then mandred eastward to
Orak, where you crossed the frontier and
turned to the southerst'

'So we did comrades,' shouted half a
dog n voices at once 'He speaks the truth
—so we did

'then you record The

so we did?

Then you pringed Fort Kara Butak, crossed the Kara Koum desert, and halted here and here and here manning and describing the various po is

"The Cossacks listened open moulbed to the funding names, and the excited clamor was followed by a silence o autior anazement. Then one said.

"Father can you show us the very place where we are now?"

To be sure I can, my lad See, that black spot is the vilinge von tar; there's the river, twisting and winding, at dhere is your camp."

Tiver, twisting and winding, and here is your camp?

There was ano her pause of blank be-wilderment and tien the sepred veteran with the grav mustache asked in an anestricken whisper

But, futher tell me, for the love of heav n, it we've marched 1000 miles since le ving holy Russia how our it go mito a scrip of paper no ibigger fran an Lister cike?

Shulteth Sorrow.

Jerss Siftings.

Subscriber—Sy it it kind of a thing do you call this? Is rea joke? Pretty rough, sending out a thing jot that sort and expecting a man to read it.

Id to:—Ye it's bad—very bad, I must admit but, my friend your trails as nothing compared with mine You only have to read it or e.g., in point of fact you need not do that, you can, skip it Now look at me I ve got to think it out first and a gue my eli into the behef that it's worth arming. Then I write it, read it over, tear it my, rewrite it, rerend it, correct a lot of errors in it discover that I have over, tear it un, rewrite it, rerend it, foor rect a lot of eriors in it discover that I have left out it couly good joint in it, interline that, send it to it e printer have it returned to me in proof indi that he has omutted the funn part too, interline it again; read it again when the paper is out, and discover that the gleam of brightness is still missing Shall I strike your name from the list?

SKIN CANCER.

Erveral years upo I was called to see a colored woman who had a realignant form of cancer on her foot. The cancer grew worse under the prescribed freatment, and the toes and one side of the foot were at length eaten entirely away. The patient could not have survived much lenger, but I commenced the use of Swill's Specific, and it cured her sound well. That was three years ago, and there has been no return of the disease. I regard Swill's Specific a most excellent medicine for blood discuses, on its tendency is to drive out the poison. Matherville, Miss. WM. E. Strace, M. D.

SSS

CANCER OF THE TONGUE. For three or four years I had an eating sors n my tongue that made a considerable hole in I became alarmed at its progress, and went to Atlanta for treatment. The result was that commenced the use of Switt's Specific, and the sure was congone, without a trice of it left. Thomastor, Ga., Blar. 44, '29. A. Lawis.

\$12,000 will be required for street work during the coming year.

8. G. Grubb has got the endorsement for ostmaster at Chency, of the two senators and congressmen at Washington, and of the

section of country, and the present representative raised the wheat on Buck prairie which took the prize at the Centennial ex-position at Philadelphia in 1876.

With the depth of snow upon the ground

A good courificusé-is needed in Jefferson county, says the Port Townsend Morning Leader, and one costing not less than \$100, 000 would not be extravegant when our wealth and requirements are considered, Within five years this city may have a population of not less than 35,000 or 40,000 inhabitants, and a courthouse costing the amount mentioned, would almost look squalld among the city's handsome buildings

A RICH INLAND CITY.

Baker City Following the History of Similar Places.

THE METROPOLIS OF THE MINES

Center of a Region Pilled With Mountains of Gold Rapid Grew h and Bright Puture-Increased Demand for Mining Properties.

BAKER City, Or., Jan. 24, 4890 .- Special tent from Portland, Oregon, and Balt Lake City, Urah territory. It has been the his-logy of all-inland cities of phenomenal netwith on the lines of the great trans-con-tinental railways, (be this by chance or otherwise) that they are situated from four to six hundred miles apart. This proposi-tion is easy of domonstration. Take the N. P. R. R. for example, with Dututh as its ostern terminus; coming west we have Fargo, Medora, Helena, Spokane Falls and Tanona, its western terminus; all about equally distant from each other, and all (w.th the exception perhaps of Medora) cities of wonderful promise, and phenomenal the custern terminus; we have ahs, Denver, Sait Lake Cliy, er City and Portland on the western forminus; cities of destiny and not of chance. There certainly is something in his regularity of distance which cannot be titletly attributable to chance. Like posss, or corn, the distance between the hil regulated according to scientific princ

properly can be purchased much cheaper new than when the excitement is at its hight. Many placer claims will be profita-bly worked, which have him idle for years on account of scarcity of water. They will add no little to title output of gold from this section of country. Taking everything into consideration, there is every reason to be-lieve that the year 1890 will be a most pros-perous one for Eastern Oregon; and it may be truly said that "Baker is the coming city between Sait Lake and Portland."

REEPING A HOTEL.

Good Accommodations and Big Prices the Secret of Success.

A good many botel patrons, says a writer in The Epoch (New York), imagine that the pleasant young man who stands behind the botel counter, answers all your quositous in a second stands believed to the process of the second stands of the second boile counter, answers all your quositous in an affable manner and gives you a good room, runs the hotel. That is a great mistake. The man who buys the samplies, manages the servants, controls the kitchen and who may never be seen by the patrons—the one, in hotel parlance, who looks after the back part of the house—is the mm who deckles the fate of a hotel, Failing to understand this proposity has often had to direct

stand this properly has often led to disaster ir, notel ventures. Where there are too many hotels in a pace, some must go to the wall; it is a survival of the fittest, and the best kept house will win. A hotel man need never worry if

The fronty of fatte is again exemplified in John Nolan, who died last week in St. Merry's hospital at Walla Walla. Howas prior to the misfortune which deprived him of his tivelihood and resulted in his death, one of the wealthlest stock-raisers in the Walla Wallay. Last fall he drough his hords into Moutana, deeming he would find a ready market. But he was disappointed. Whiter dealt rigorously with his cattle, and those perison and they perished to the last one.

This is important.

In order to obtain the best accommodations, land and a ready at No. 121 First street, corner Call carry at No. 121 First street, corner Call.

Purko & Lacy bane stud W. H. Beers. Conrad Krehs and Megele Krebs for recovery on a promissory note for \$88.9

James Dean was on trial yesterday af ermoon in the criminal court on a charge of mayhem. It is alleged lint on the lat of January he bit off John Womplers lip. A verdet of guilty was speedly found. Dean still protests his innocence. He will likely be sentenced to day.

I geterday morning Deputy Sheriff. J. D. Smith of Baker City, bassed through here for Salem having in thargo P. H. Hensen, an basane man about 45 years of age,. The patient a mainary is of imbeelle character, not violent.

Judge Stearns made an order yesterday ciling Edward L. I. Failler to pay into court \$20 autoency focas for Mar Mary Fuller, his wife, and requiring him to devote \$20 per month to her support.

R. C. Smith his taken out a writ of attachment against Alex Lewis to secure \$200 money leaned, The latest development in the Beck, estric lit

against Alex Lewis to secure \$300 money loaned and \$50 22 paid out on account of King lom s

In Judge Shatinek's court yesterday morning the case of D K Joses against the Portland & Willemette Valley Bailway Company involving \$50.4.7 went to trial on the 20th of last July the sawmill, boarding house a large quantity of number etc. located on the White House road, and, being the proporty of the plaintiff was destroyed by fire.

Jones alleges that the cause of the destruction was due to snarks flying from one or more engines belonging to the railway company, which were not provided with spark arrosters.

The defouse set up is that the fire was not caused by the company a negligence and charges negligence against the prosecution. A good deal of expert testimony is being prepared a fleeding upon the company's meaningment of its mechanism to the provided with a consume! In the lines, it is being prepared and the company is minary much of course its mechanism of the provided of the mechanism of the provided of the provided of the provided are arrayed on each illustrate of counsel are arrayed on each illustrate the provided of the provi

THE NEW JURORS.

Il IF Clayton the real entote agent and W H Geous, the Sandy farmer who have been making heroig exertions to even; c the jury duty for which they were drawn were successful yesterdag in obtaining excuses from Judge Shattuck Coons was excused for two weels and Clayton for for days. These are the only accuses Judge Shattuck struggarted, and Judge Stearns has been even more rigorous giving excuses only to those who had the exemptions provided by the statute There is a very good proportion, therefore of the Hist drawn now serving. There are seven on the grand jury, the full twelve on the narrow gauge suit now in progress, and eight of those on yesplarbay a criminal act on being of the regular panel. Five special ventrae were necessary to fill the griminal jury out to twelve THE NEW JURORS.

the criminal jury out to twelve

ANOTHER PER/UNY CASE.

Albert Sunderland the dairy commissioner was arraigned in the cr minal court yesterday morning on an indictment charging him with perjury. He was allowed till Saturday to plead and gave 71050 bonds. The prosecution promises to be vig rounly pushed and on Saturday a date for trial will be set. Sun leria at was indicated on the 18 h inst., but the indictment was withheld from the papers.

The usual number of offenders occupied the anxious seat in the police court resterday Among the drunks were Junes Quinn and Thomas Healy, two chronics, who were fined \$5 each. Junes Konnedy was given thir r days for being drunk and disorderly and James Sutherhand was fined \$30 for using abusive language to officer Mot.

NEWSPAPERARCHIVE®.

probable that the discussion between adstone and Mr. Blame, in the current r of the North American Review, will ue use of as one of the most imporocuments in the compaign preceding presidential election of 1892. This is ng quite a long way shead, but it is that the tariff question at that time still remain practically in its present in, and therefore this discussion will op" for use on that occasion.

Giadstone's argument as to America based—in fact though not avowedly the assumption that it was the proper liness of America to produce food and materials for Europe and to leave to rope the manufacture of unished good is, indeed, is the policy that Europe, and gland in particular, would like us to sue England must import a large part her food and ray materials, and on the world at large for a mark then don the world at large for a little of the goods are clinistone sets forth the new that it is necessary for England to reue—indeed it is not possible for her to reue any other; but all the conditions in series are different from those in Englands. d, and our policy, therefore, should be

n substance Mr Gladstone remarked that n sunstance air Giantsone remarkon there
piotective poho; had not been success
in Amelica, sinco under protection we
I succeeded in producing but compara
oly small suppl co of high prized iron and
olen goods, whereas we might under aneat and cotton. But the fact is, we equal stand herself in production of fron and al, and in wooten goods, expensive (with el, and in wooten goods, especially in the linery winds, including carpets, the iness of our output has been more rapid that of England, while the decrease in

should devote curselyes more largely to eduction of wheat corn, cotton, etc would be our competitors in industry? , hands makes to count that they would the peasants of Russia, the fyots of In , and the cheap and unskilled labor- of the world at large. But we ought depend less and less on the foreign what for sale of the products of our agritural lawor, and devolop more and more policy that will make a market for these endling support to every other. A life rely or largely agricultural is a life that origs to a poor and unprogressive coun-free trude, as Altson, the English kla-tan of Europe, has shown in so many the of his great work, is a policy for an-old d nich state, while protection is a policy a young and yet undeveloped one. Mr d for ours. The conditions are so es tially different that no comparison is pos le. It is a case of contrasts, not of resum-nces. The articles in the North American Mr. Gladstone and Mr. Blainc serve well bring out the facis as to the true policy the United States, and there can be no the company documents for our next off discussion. The identity of Gladstone's nument with that of the democratic party the last campaigh cannot have escuped

AN ARGUMENT FROM CHINA

The Chicago Tribuns makes pertinent an accumulation of capital in corporate and the organization of labor under control aided by unprovements in ma-inory. The disciple having inlesly asmed that the average buman tter off in the United States fifty years ago, here were no great corporations, no or Vanderblits, no vast and com-gan zation of capital for the exploitaof labor-saving machinery, and when ions of fifty years ago have prevailed for

The conditions existing in China are sult of an attempt to put he les into practice. They are sinseem to desire to create here itch the new philosophers seem to con mn as a device of the rich to oppress the or. This is why there are no great for-nes in China Even the hereditary nobil is not wealthy in the American senso ere are a few moderately rich traders on a coast, who have learned to imitate the

o cost, who have learned to imitate the bithods of the foreign residents but there is no wealth producing industries in the of mineral resources perhips as the United States There are no himequalities of wealth in China as with the Western world There is rather equality of poverty The primitive simulting of production which was common in rural farms and viliaces of the United rural farms and village- of the United tes fifty yours ago has prevailed in China forty centuries always currying with it unitive privation and hardship. There is chably no country on the face of the globe t absolutely savage, where such equality average human condition exists as in ina. One man is about as rich as an her and works the same, and consume d accumulates about as anoth as another d accumilates about as much as mather of there is no organized capital or labor ving machinery. This pretty nearly real site dream of the new social reformers Every schoolboy. knows what has been be result of this system, what is the avere condition of the inhabitant of China d his command of the means of subsis-ace and enjoyment. Not one in a thous de nudenjoy neut Not one in a thouse de fite 300 000 000 or Chinese er jeys as the confort as the poorest Western corer working regularit for the smallest tance paid in Europe or America All on there are poor and hard working with hope of getting aboad, though they are owed to own and centraliate if they can that the productiveness of China a from all the modern inventions of the

emy dovised by capital to oppriss labor not a tithe of that of the United States not a tithe of that of the United States produces so hitle that there is generally to few weeks' tood supply between it and rration. Famines are request that fall tens of thousands. Only in one respect see China excel the Western world in procureness. It has solved the problem of bauerag it e greatest number of mouths to d to the emallest everage quantity of the erewithm to till them. Currously enough, very consequence which thoughtful perns fore-see from the creation of a forced darthein equality of human condition this country resulted up a rea from the allishment of a printed equality of hu in condition in Chart The conditions re goon out er an uniform medioc y of capacity and talent resulting in the managedity of the rice for multiple d social development beyond a certain int. The same conditions rould be ere d here, it the Beitain; theory were to be lized, by denying the human intollect the ural stimulus to development and the urpl reward to achievement, by making posing anti hiermon legislation in congress

the product, mental or physical, of each the property of all, and dividing the acquisitions of the strongest and cleverest infinitesimally among the weak and titil.

Themost fath overproduction of all, over-production of the human species, has re-sulted from this equality of condition in Chinh, as it would result from the same condition here, were it to be created by the means proposed by the Bellamy school Three hundred milhons of poverty cursed a retches struggle for a bare subsistence, in a country so crowded as to reduce each per-son's legitimate expectation of a return for his labor to food enough to keep him aler from day to day. The absence of the natu ral checks upon increase of population a the Western world, prudence in the intelli-gent and privation in the ignorant—checks which the Belamy system would at once remove or destroy—has permitted jopula tion in China to press so closely upon the means of subsistence that every crep failure brings a heart rending famine. The industrial re-sources of the country, if exploited in the Western fashion might produce wealth enough to mitigate this misers, but this exploitation is impossible in the absence of the Western derice of organized capital and the western device of organization of the Bollans disciple would destroy. Just the conditions which the new school would create artificial to the conditions which the new school would create artificial to the conditions which the new school would create artificial to the conditions of the conditions ally here exist Laturally in China. The recult is a teeming population with a history of forty conturies of universal infact, is hind it, and a hopeless future of unending

PRACTICAL CIVIL SERFICE REPOIM The report of Commissioner Roosevelt of the civil service board upon rolitical assessing monists in the New York custom house, the covers the practical spirit which unmarks the civil service commission, as now constituted The commission neither sermonizes with its bend in the clouds after the manner of Eaton, nor hoaps ridicule on the law it is salary, after the manner of its other ; redu cossors. It goes straight ahead with the en-forcement of the law as it fields it upon the statute books The rommission can do no harm while it pursues this course and it can hardly escape doing a great deal of good. The simple execution of the civil service law, as it stands, will be a public benefit

The civil service law is a pretty good law There is too much disposition to confuse the actual statute with the extreme and impracticable notions of some of the professional civil service reformers; to blama the law for things that are not in it, but which certain school of cranks think ought to be in it. The law seeks to recluse in the civil service of the country these three ideas, ap politiment to subordinate and purely clerical positions for no other consideration than fitness, reason ble fixity of tenure in the rame positions; and the obtection of the civil service employs from dictation or in terference by h s superiors or by party man agers, in the pe formance of his duties as a These principles are all approved by the general public sentiment of the soun try Indeed public opinion and the practico of two administrations has added to these a fourth principle, which has come to have force of an unwritten law and is almost as generally obseved as the others. This is that persons holding the higher and more responsible pos tions who it is every where conceded, ought to be persons as aympath; with the principles of the party responsible for the administration of the government, should remain in office to a term equal in length to that of the administration which appointed them The germ of this idea is in the statutes which provide a four jears term for certain offices, but it has been extended in practice to mint others, which have no fixed legal term. In this respect, public opinion and the practice of the government have gone even beyond the law

The means by which the law undertakes to realize its three cardinal principles of ap-pointment (to runor element plates) solely for fitness, fixity of tenure and security against political assessment or dictation are not all as popular as the law itself. The last two are realized by a simple prohibition. Cierks cannot be removed except for cause and political assessments, which are the most common and offensive form of in terference with the politics of employes, are distinctly forbidden and make punishable as misdemeanor. Both these lare hearthy approved by public opinion. Nobody objects to them but the politicians who want to make merchandise of the effices. The device employed to realize the first principle is neither so effective nor so popular The plan of airl service examinations to do termine fitness for appointment to office finds little hear y and gebuine approval or defense outside of the ranks of the professional civil service reformers, and is held in great contempt by the poblishers Academic examination is not an ideal way o determine fitness for the practical dutie of public office but all effectiveness is relative, and those who condemn if have not yet uggested a better way. Those who support it only claim that it is better than the old way of making office the reward of party service, and if at practical experience has not revealed any surer and more effective test of fitness. Altogother the civil service test of timess. Altogather the civil Service haw has stood the test of six sears' trial protty well. I has outlived ridicule won public approval, and gained for itself an enduring place on the statute books and in the practice of the government. One eyl dence of the risp of the law above its original level is the improvement in the personnel of the commission. For the first time since its organion, the poard embraces three men whose characters and abilities command re spect, and who are able and a thing to win respect for the law itself by a rigid enforce

ment of its previsions The doubt of Captain William Kennedy at his home in of Andrews Manitoba, on the 25th instricalls the long story of the fruitless cearch in Arche Lnows, and icefruitiess cearch in Arche Jiows, and ice-lected sens for the fated expadition of Sir John Franklir Captain Kenbedy was commander of the second expedition sent out in search o the lost invigator and by his resurches established what was conceded long before the certainty that her John and his crow had perished from cold and starration on the tubospitude shores of Lancaster sound. The detans of Cartain kennedy's exporations, like those of the toyagers who, selore and since have braved the perils of the silant seas to the far North invalsh little else than successive chanters o: bictless adventure, extreme hardsbips, bitter suffe ing and death Brays men and bold a tigator are these explorers. The name, of most of them have ceased to be nentioned very turthe history of the 12 peditions with which they were connected fact o Copean kennedy were recalled only by the announcement of his certh

A cock and bull story cories fro a New York of a rerublean conspiracy to 1 the Utah, Idaho and Arizona republican be direments ago to domine them as states thus securing the presidency in 1892 however New York goes | the story 15 vouched to by two gentlement one an editor of the Salt Lake Horald who has neu, carlousis erough, to be at the same tir c democrats and Mormons Apparent's the democrafs and Mormons Apparen's the Lastern democrats take some stock in it, and it may be livered from on the floor of congress The democratic party and many betraved a sreaking half-confessed sympathy with the Momen magnity, but it has never yet taken up arms to defend it in so open a way as it would do
if the routhy of his absurd scheme were to
be assumed and it made the ground for op-

and in the new constitution of Idaho and other Mormon-carsed territories aspiring to statehood. It would be just like the demoerats to make such a stupid blunder as title They have not yet succeeded after thirty rears, in hving down the curse entailed upon them by their championship of human slavery To saddle their party with the odium of champlonship of the other twin relie would go far to complete its rain

The Chinese inmister, writing to Secretary surprise that the supreme court should have oold that the Chinese exclusion act of 1888, though in contrivention of the expressed significant of the tree's of 1973 must be respected and obeyed as the law of the land. Irritation on the part of the Change in 118 ter would have been natural enough but his intelligent attities of Medicin civilization mus' have taught hundlist municipal law is, for the citizens or sn' jects of the nation making it, superior to treaty obligations A nation may always repeal a trenty by a municipal constinent. It is never a gra-cious thing to do. It is not a safe thing to do. when the other party to the treaty is a pov erful belingerent but it is legal enough judicial tribunet could splictto! The valid to of such an act. The only tribunit to which an appeal could in carried with hope of eucbest is that of Mars The act of 1888 vivi basty and ill advised lively est court have been accomplished by Jairent negotiation. The office one of the Ormese to the treaty then pending were not so grave that there no hope of their removal. But the Cleveland rdmini tration couldn't want There was an election coming on and ir was necessary to concil ats the auti Chinese vote So the exclusion act was rail roaded through as soon as the news of the rejection of the treaty was received and without waiting to hear the reasons. China was bullted as the English m nister was dis missed to rain a few votes for Chyeland It is lucky for the country that China is not a dangerous belligerout, or this desperati administration ready to sacrifice the administration ready to sacrifice the national konor-to gain-a few votes, would have left to its sacressors a more trouble some legacy than an angry and scolding Assatic diplomat

storm king has treated the world during January is only equaled by the vigor with which he has presented each successive piece and the rapidity with which the changes have been effected. The tre mendous gales reported upon the At lautic have found their counternary counternart in the furious winds that have swept over the great tablelands of North Americ States have been successively dranched by runs and piled high with snowdrifts. The Pacific const has as usual suffered less than other sections of the countr, from these stories but they have been sufficiently vio lent even here to make the balmy breath of the Chingoi abon it came only less welcome than that of spring will be and to send the geruire Oregonian out bare headed for very joy into the gently descending Oregon rust that has quickly dispelled the snow lu the Willamette valley Boing generally well housed and with an abundance in cellar and barn, the farmers in this section can scarcely be said to have suffered serious in convenience from the unwonted storms growing grain from barm, while it insured an abundance of moisture, have sat about their firesides well content, waiting with reasonable patience the sub-idence of the storm. Those in the sastern section of the state bave not been so fortunate, as the severe weather and unusual fall of snow found them in a measure unprepared to care for their stock. Rhey have learned over again the lesson so frequently given in this direction, to unlearn it again next winter if the weather proves mild and the cuttle live comfortably on the range

sonate yesterday over the Laince incldert at Aberdeen Mississippi benator Walthall of that state one of the most cultivated temperate and fair numbed of the Southern senators, repeated with great e plicitness and deliberation, the now familiar declars tion that the white people of the South will never permit the negro to enjoy the political rights guaranteed him by the constitution This declaration has been beard so often and in so many places in the Southern press on the platform North and South, and repeatedly upon the floor of congress, there need he no hesitation accepting it as the deliberate and final determination of the Southern peo ple This is it form and to fact a domai of the right of suffrage by the people of the Southern states o the negroes residing therein. The denial is not made by the states through their legislatures but the legislatures executive and courts permit it to be done by the people without interfering to protect the outraged or prevent the outrage done by its citizens it does The contemplated by the fourteenth enend ment to the constitution exists. The right of suffage is denied in cercertifi n illio is states citizens residing to them and guarantecil ail the rights of cit zendlin by the constitution.
It is the to enforce the contenth amend ment by appropriat legislation declaring that the negroes in the South athall not be counted in apportroing representation in congress and the decotoral codes after the

Sounter Leller's argument before the house committee on columns restorday gives formal notice of the intention it has been pretty generally understood the silver men ontertuined to fight the Windom plan from the outen This is rathe, short sighted policy on their part. It is a resection of half a loaf and acceptance of the alternative of no bread They will not get free comage from this or any future congress. As Senator Teller intuented yesterday, a free courage bill, even if passed by congress would be vetucid by the president. We are not likely soon to have a president more (rierdly

the storeotyped story of Mrs. Larnell : poverty again appears in the newspapers If her illustrious son cannot make his braluyield a sufficient sum to keep his mother guished men and kyy a tribule upon brawn guinea men and try a thoute upon brawn for the purpose of supporting her. THE OLYMPIA FARCE.

Anti-Boodle Investigation a Subject of Bidicule.

MATTER WILL BE DROPPED

A Seattle Paper Charges the L glalafore with Corraption-Provinces of the Tidelands Bill-Several Measures Bacome Dew

Of MEPIA, Jan "7 - [Special Telegram] - The anti boodle in estigating committee fluished its labits to night and the three reporters who un eartised the sousaiton of the session will not be eart not the Aensation of the secure hanged, drawn or quartered nor will they be peried for the house or brought before the and reprimanded as predicted by the tri manearly two hours consider ng the testimous duote at its various sittings, and agree to

this scatton

There was a regular arrows in the house this afternoon, when Chairman Lidens of the antiboolie investigation committee areas to a question of privilege, and reported the conduct of Representative Brown of Spokano before the committee Saturday night. Chairman Edenssald that if the committee could not extract testimon; it desired to be relieved. A transcript of Brown's evidence accompanied the report A farrigal but spillt of doba's followed, during which there was much confusion, and Mins, who was in the chair, had to use als gavel reproduction in appling for order. At times there were half a doven manyon their foot elamoring for meognition. Geoghegian, Evanu and Brown of Spokane. tion. Geoghegan, Evans and Brown of Spokane boildy denounced the investigation as a farce There was 10 authority for 10 to the cour itution, specific charges of brilery or corruption have been made he operation charge of this hind was made in connection with the anti-bootle society Gurk's motion to lay the report on the table was voted down likewise Eyans's motion to ex-cases Brown from further attendance upon the committee from further duty. He criticised the house sharply for devoting its fime to a farcical

This is a most niscial is failure" he said, "We have been ighting winduil's from the start. There was nothing tangible at il st, and there is nothing tangible now" Evant mainthest that Brown had a right to desline to saucer any question saked by the committee, and Grant argued that he questions of the committee were pertilect "frown, of Spokane, displained any I tention to be in contempt or disrespectful to the committee or the house, but he had profound contempt for the insignificant ground of the investigation. Brown continued to rule "froe committee did

not use me right when it allowed a manabor of (Speaker Feighan) to interrupt the exacunation rhaw, whom Mositray and Cook, in the conver-

auss of the boodle stery was the passage of the

have voted for the former had be been here when it was on final passage. Speaker leighen took the floor and said, with some asperity, that Brown's refusal to see fly was not a maily not honest bing to do. Frown arose to a joint of order and protested against the speaker's remarks. Peighau-said mildly that he would keep within the rules of the house. Geoglegan wanted to whildraw the motion to react the committe, whereat Gundy demonwend the whole thing as a farce, and would keep the first the committed was didented to report at 2 f M to-morrow.

The Seatth. 'carnal this morning charges editorially that there are tably lets in Olympia plentically supplied with boodle, and while it is in doubt as to whether money has been used, remarks that it is significant that thus far no anticorpo ation legislation has massed the house, while at assat one noterious "50, bell, he San Frieders printing bill has been successful. Baturday hight is the snow was going of the superintendent thought be could safely rul the cars out to the power loss. This thew however caused the banks of some of the cuts he ever down, and form something worso han a solve blockade. The construction car which was left on this side of the cuts he been thus of any product of the cuts he been thought out the cuts will be observed and the cars will be observed and the cars will be no lock of electricity. If good without saying that the curs will be kept of this side of the ents the cuts will be kept of this side of the ents the all further danger of landsides is over

A LIGHT SEIP OFF THE MOUTH Of Great Service to Navigation-Bids Scon to

Be Lat-A New Tender Much Fooded. Captain W. W. Rhoads, lighthouse inspector of this district, has received plans and specifications of the light ship which is to be placed off the bar of the Columbia. From the appearance of these sho will be a very stougch little craft of compo-ity construction that is with a steel frame cov no construction that is with a steel frame covered with plank my She is to be 112 feet in length 26 feet 9 inch beam, and 12 feet 8 inch depth of hold. She will be supplied with a life boat and a sail boat, and will have a crew of about seven men. Sho will be furnished with a steam fog signal and will be rigged as a fore and after the contraction.

cheener. The craft will be stationed about it ree miles off The craft will be stationed about it ree miles off the mooth of the river, and will be a great ad vantage to vessels wishing to enter the river in foggy weather. When a captain "picks up' the og signal on Tillamook rock and takes a new departure, it is difficult to 'pick up a buoy but when the light ship is in position a clean shootcan be made from her right into the river. It will not be a calm and peace ull place on board theilight ship and, as Captain Rhonds says when a lot of fellows have been on board of her for a few months it will be hard to make them sensick, unless they are turned upside down. Bids for the construction of this craft have been advartised for the expense on a behrunry II and it is required that the beat be completed and delivere lat As toria within six months from the date of the up proval of the contract by the secretary of the

that the boat bercompleted and deriver as a storia within six months from the date of the approval of the contract by the secretary of the proval of the contract by the secretary of the treasury.

Gaptain Rhodel is writing for the Manzanita to complete the jab of shiftin, but bury and outlied to be seen that the secretary of the work of the proceed to busy ful the chen be a let lettely dredged across the bars in the Colt me bar. It is expected that she will be up in a few days. What is needed here sadi; is another tender. It is impossible to do the work of the district with one tender, even if she was a sound boat, and the Manzanita has a bad boiler which is being containtly regained. Be shew been advertised for in San brancisco for a new boiler and do Manzanita will be sent there at the latest passible moment so as to law possible. So much time is look by rough weather absent from the sitution as do at a time as possible. So much time is look by rough weather when the sheads he was going away, said to captain Rhoads. Done it is that Collambia has make you gray bended, "I did not know what he means said Cantain Rl and so but I am be ginning to find our T ere ought to be another ten the during that strict, but it is I and work to get one

A CROOK TAKES LEG BAIL

While the Datectives Work Up His Cose, H. Eve and Ear, Catarrh, Throat Files His Way Out of the City Jail

The need of a new dity lail becomes more apparent with the escape of each prisoner. Only a few days ago the detective force arrested two crooks, who were suspected of having had a hand in several robberies. They had about \$50 between them, which, no doubt, was sto en At least such was the supp attion of the officers. The controllers are not hooked on the crister as the lot of jabbering Celeat his whom acen by a reporter Upon being sixed about the affair he
said
"My name is Chung Cow and I went over to the
theater to pe ck up some clothes belonging to a
frend of natue. I see Ghung an actor, one note the
door, and thought I was a robber, and shot me."
Dr. Wells was cuiled shortly after and chamined the wound. When the pale faced discribe
of Confuctiss was told that he was merely grazed
and that the ckin was hardry broker, the China
man who was still narrly frictioned to death,
would sourcely believe it.
The police officers began search for the bold,
bad actor soon efter the knowledge of the fraces
renched them, but up, to a late hour they were
still on the track and the see it was very weak prisoners were not booked on the register as the detectives were desirous of digalog up further evidence, before making the arrest a public. The detectives worked on the case and worked on it and while they were work of oil to the bose crook was filing its way one of the front cell in which he was linear rated. When the officers entered the cell they found that their bird had flown. He filled his way through one of the fron bers and made his escape at an hoir when gravelends young, and darkness envelops the cliv.

The other man who was the less suffice of the prisoners were not booked on the register as the

The other man who was the leas guilty of the bro and against whom no evidence sufficient to score conviction had been stated was the released. The frequent esc po of er musals ought to be the strong elements, for the implementation and in mediate need fance entry his

WHY PORTLAND LE 198

Have that Thirtegy fore Improved

Now that winter is over the committee on stricts are anxious that the work of improving North Front strict, so many times deferred, sould be begun as soon as possible. The constants for the work were let some time shot that you fall to contractors have yot filled tour binds. E. J. Minwell was a warded a contract for six or seven blocks. This bid was much lower than they off the other, be a St. Seperated the office of the other, be a St. Seperated the office of the other has been dead to the bid was so low that they ought not to have considered it as due. Mr. Maxwell has not filed his bonds, it is supposed that he has not been able to get any one to be a root for him at that prior. The mext highest I divist? Seperated as the sow men charged \$1 per varid for grared as the sow men charged \$1 per varid for grared at the fiver and it is not be heard. Sep call and rolled and grave in a thirtee \$1 per \$1 to \$1 to \$2 to \$1 to \$2 to \$1 to \$2 to \$1 to \$2 to E J Varwell was awarded a contract for six or true here at 5-50 ji.e. erday merning active at 5-60 ji.e. erday merning ac
